COMAPANY PROFILE

ISHAAN ASSAYFINE was incorporated in **2011** in **AHMEDABAD, GUJARAT, INDIA** as a service provider for scrap and metal refining. Since then, we have advanced in the field and extended our service domain into an absolute refinery unit. Presently, we are placed among the specialist service provider of various precious metals refining such as Gold, Platinum, Rhodium, Silver & Palladium. Refining of precious metals from scraps and alloys is a specialized area, which requires knowledge, technical strength, and handling expertise. We are fully equipped with all these attributes to offer top class metal refining services. A vast pool of talent and quality testing facilities backs us, which enables us in offering qualitative services within a stipulated frame of time. These hallmarks along with our ability to customize these services as per the requirements of our clients have earned us a huge web of clients in India as well as abroad.
